

Bee Kind Telescope Letter Match

Directions to Making a Telescope:

- Step 1: Use scissors to cut across the straight dotted line. Tape the paper with bee letters around a paper towel roll.
- Step 2: Use scissors to cut across the straight dotted line of the second page. Then, cut out the little circle carefully to make a window. Tape it around the paper roll again but LOOSELY so that the letters are hidden and the second paper can move up/down the paper towel (you may need to help your little one with this step).
- Step 3: Begin twisting the second layer of the paper roll to reveal hidden letters in the window!
- Step 4: Once you find a lowercase letter, practice writing its uppercase letter on the letter mat!

Hidden Letters

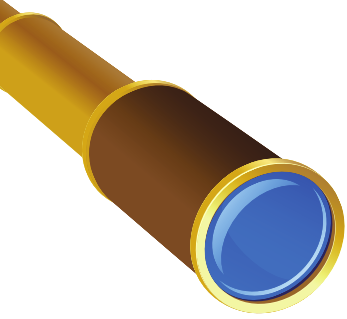

Trace	Copy	Trace	Copy

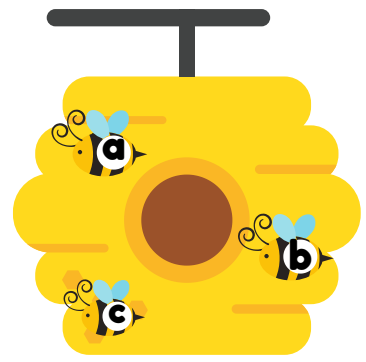

Try your best to trace the letter!
Then, practice writing that letter

- Tips:**
- Sit up nice and tall with feet flat on the floor
 - Check your finger placement on the pencil
 - Don't forget to start at the top on the dot.
 - Use your helper hand to hold the paper as you write
